Summary: World of halo but with naruto people in it but no there not spartans detail of the story inside first ff if I keep writing it but please review the idea first if you like the idea

## Narutohalo Idea

halo / naruto crossover

Well seeing as there not really any good ff with halo and naruto (well to my likely anyway) I came up with something in mind after remember an mass effect/naruto crossover

My idea is to not have naruto world but to use the main character's

1. not to have the main story like kyuubi and what not but try to keep the growing up close. Would have some kind of village's/town to turn in there childhood to make them close as what they act like in the anime

>or rage kyuubi naruto would not be in this but an rage side close to what naruto does when he under the kyuubi (think of sakura half in that way when its the same naruto but more evil or animal in an way) try to tie narutopeople into 14 year old john time period or some part close and not ill not have it like team 7 just group of narutp character that i would think fit in better hinata, sasuke, sakura, naruto, lee, tenten (not gaara or could have an emile like gaara ha) if you have any more please tell ill think about it and re add it to make an list on the button. Also can be from any village but not fillers like to keep this an manga base and halo would be mostly base off halo reach novel

question was thinking of having them genetic made family in the china/japan army not spartans and what do you think of

1. hoping to have power/superhuman(in some way of an spartan but at the same time not the same like armor training and genetic  
)

bloodlines would be turn down and change but keep some of the tech to it

to make it close think of biotic /tech from mass effect in a way and nothing that would not really go in halo world like summons and what not)

So character from naruto

mains Naruto(will have some brains avg most like), Sakura, Hinata, Lee, Tenten,shikamaru (leader/genius/planer),

Could be, Neji, Sasuke, swap out naruto for naruko which mostly ill keep naruto because of its meaning, Tsunade as one of the leader of the program(like hasley),killerbee(thinking of having him kind of like jorge from reach game), Haku female or male?, nagato (cyborg of some kind?),anko, could add jonin team leaders but have that as teach most like or higher up most of them anyway with no powers, side Characters can be added just post who and ill think about it

Mostly all halo character from the book and could be an oc or 2 give ideas if you like and could add other halo characters later on

TWO THINGS

1 Artistic so my spell third rate at best and it will take time to spell things right but do not get it wrong ill sill know how to make an story just do not yell back saying it's taking to long or spelling errors

2 This will be my first FF if I make it. I had other ideas for some FF but spelling stop me

so post if you have idea's that you like to see and ill try to see if it work's and other character you like to be main or added or ask if you like to know what am planning but i will not just tell you the hole think right off the bat

P.S no Hiram and crack only like well put together story's like most my Fav's

End  
file.
